

Introducing Wow!

for children aged 3-12

Wow!

Wow!

Kids, this is English!

- A comprehensive and highly motivating system of learning
- Interaction with a native speaker through songs, video songs and video clips
- Learning by playing in active communication
- Use of emotional memory makes the learning more effective
- Continuity of education from kindergarten to primary school

Engaging Qualities

- First workbook with a real face → facial recognition is directly linked to language development
- Up to 40 weeks of attractive attention holding material with suggested extension work
- Enough reality to make the fantasy come alive
- Contextualised language
